

Allegro Dental Center

Lone Tree, Colorado

Owner: Allegro Dental Inc.

Total Area: 2,400 sq. ft.

Services: Architecture, interior design.

New dentistry center was constructed as part of developing medical office campus in the Southeastern part of Denver Metro Area.

Design was focused on patient's experience and desire to create non-threatening, comfortable, pleasant feeling and atmosphere of resort, not medical setting. Panoramic mountain views and patient/staff circulation patterns were main design drivers.

Selection of interior materials was driven by aesthetics, durability, maintenance concerns. Pastel colors scheme with tasteful modern art selection complements the overall design.
