

NOAH ROBERTS
INTERIOR DESIGN SUPERVISOR AND PROJECT MANAGER
STUDIO OBERMEIER • SHEYKHET ARCHITECTURE

PROFILE

I have always been interested in the creativity and beauty of the world. I started my collegiate career with the intentions to pursue a double major in Art & Art History. I love the world of art, what I could possibly contribute to it. I found my outlet in the architectural realm, and changed my focus to the ENVD program at the University of Colorado which has a specific focus on the sustainable systems that create a working building. I have had the opportunity to work with many architectural firms and interior design firms over my career, and have had the chance to learn from some of the best design professionals I have had the privilege to know. And through it all, I have found that my design work and art can come together to a beauty in the world that others can enjoy and live their lives in.
