A spectacular natural setting, quiet sophistication of design, and ambiance of the city make St. Regis Aspen a truly unique experience.

Our hospitality design team has been proud to work on this iconic destination resort for several years. We continue to design projects of varying scales to improve, maintain, and update St. Regis Aspen, collaborating closely with developers, operators, facility managers, and the vacation ownership association.

Dozens of projects for both back-of-house and front-of-house have been completed to enhance guest experiences, streamline operations, improve energy performance, and remain a technological leader in the field.
