Services Provided: Architecture, Interior Design, Visualizations

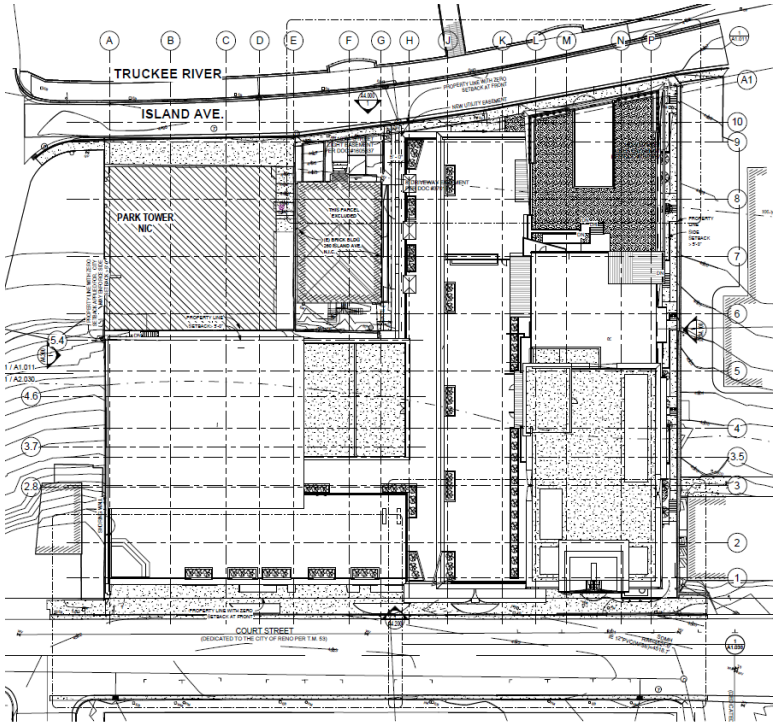

"Wildflower Spring" early concept sketch.

Wingfield Tower is exceptionally sited across from the Truckee River and Wingfield Park in downtown Reno, Nevada.

Wingfield Tower Mixed-Use Development is located on the Truckee River in downtown Reno just across from Wingfield Park. It is rare to find such an incredible site for an urban project of this scale. As such, the design is composed to follow the sloping landscape to the river, respond to the vibrant pedestrian experience, and maximize the magnificent mountain and downtown views surrounding the project.

Dedicated to the proposition that architecture is art
